

Google Sheets: Conditional Formatting Tutorial

Courtney Speer

CLICK HERE TO
WATCH A VIDEO OF
THE STEPS!

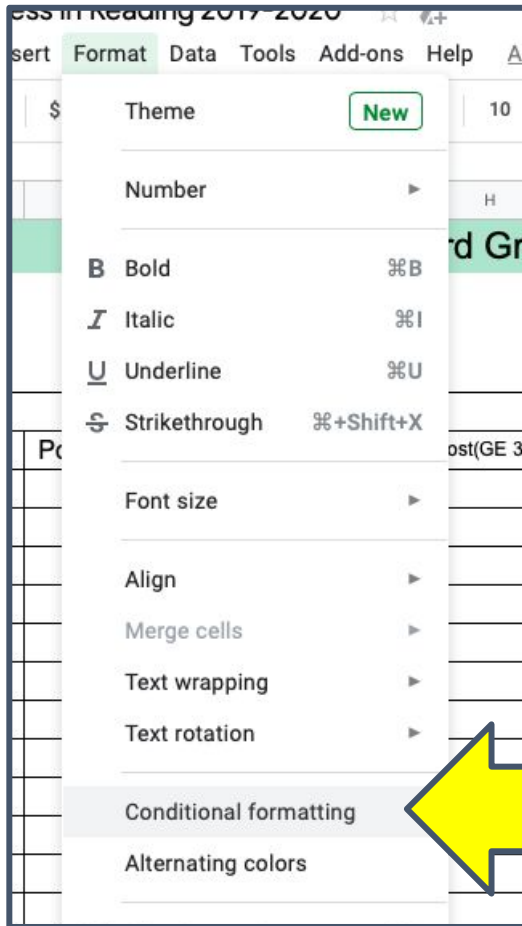

1. Ensure you have the sheet you would like to work on open!

on	DRA			Star Reading			Dibels 8th - NWF		Dibels - WRF	Dibels 8th C	
	Pre (30)	Mid (34)	Post (40)	Pre(GE 3.0)	Mid (GE 3.4)	Post(GE 3.9)	CLS	WRC		Pre (77)	Mid (105)
	24			3.2			29	9	33	64	
	28			3.9			44	15	33	70	
4	10			1.1			25	5	9	14	
	28			5.1			43	14	65	80	
	10			2.6			44	14	33	47	
	24			2.6			37	12	41	74	
	34			4.3			38	13	57	105	
	30			5.1			45	16	79	169	
	20			2.3			44	10	32	63	
	24			3			46	14	31	48	
	14			2.7			39	10	23	61	
	20			2.3			44	10	33	43	
	18			2.3			33	10	22	57	
	28			3.6			41	12	34	60	
	14			2.7			25	5	26	43	
	30			3.3			47	15	49	81	
	24			2.9			40	13	38	62	
	30			3.8			32	11	47	89	
	28			3.6			25	7	56	96	

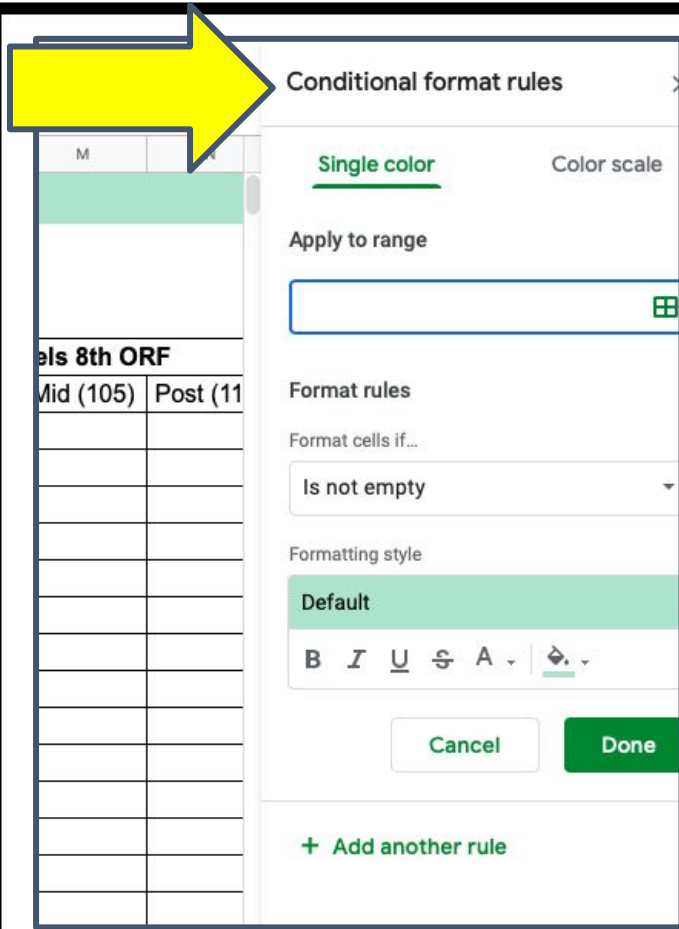

2. Begin by navigating to the Format option in the toolbar. Then select Conditional Formatting

3. You will then have this dialogue box appear to the right.

Some important parts:
Range, Format Rules, &
the Format Style

Conditional format rules

Single color Color scale

Apply to range

Format rules

Format cells if...

Is not empty

Formatting style

Default

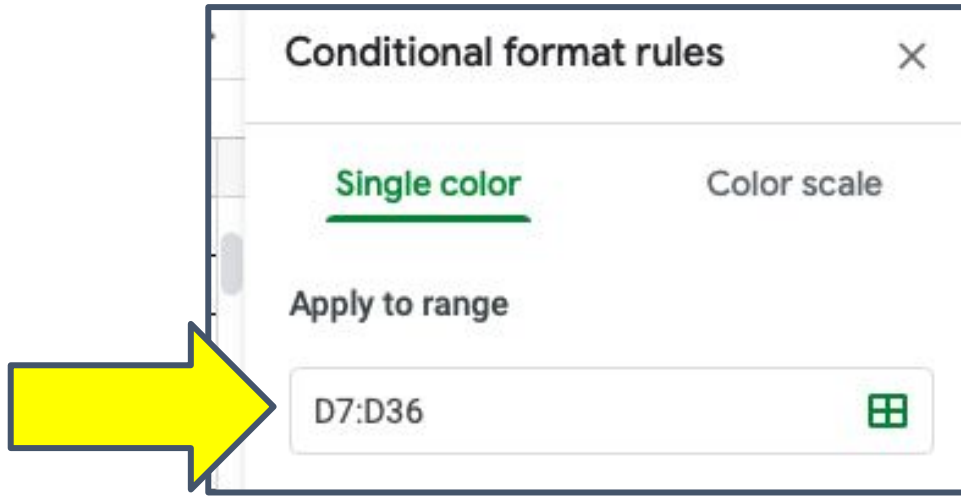

B I U S A

Cancel Done

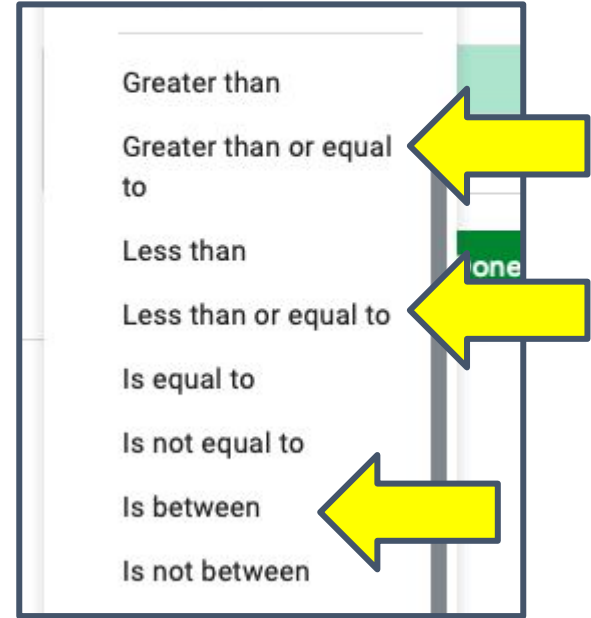

+ Add another rule

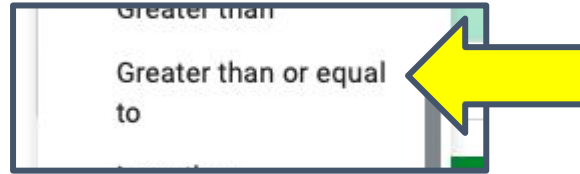

4. Selecting the Range of the cells that you want the conditional formatting to apply to. For this example I want the cells in row D, from 7 to 36. So my Range would be D7:D36

5. Now we need to set the *Format Rules*. From the dropdown menu make the selection that applies. In this example we will use the statements of *Greater than or equal to*, *Is between*, & *Less than or equal to*

6. After I select my Format Rule, I need to set the value(s).

Format rules

Format cells if...

Greater than or equal to

Value or formula

A screenshot of the "Format rules" dialog box. It has a title "Format rules" and a section "Format cells if...". Below this is a dropdown menu showing "Greater than or equal to". Below the dropdown is a text input field labeled "Value or formula". A yellow arrow points to the "Value or formula" field.

For this example I will set the DRA value to *Greater than or equal to 34*

Apply to range

D7:D36

Format rules

Format cells if...

Greater than or equal to

34

Formatting style

Custom

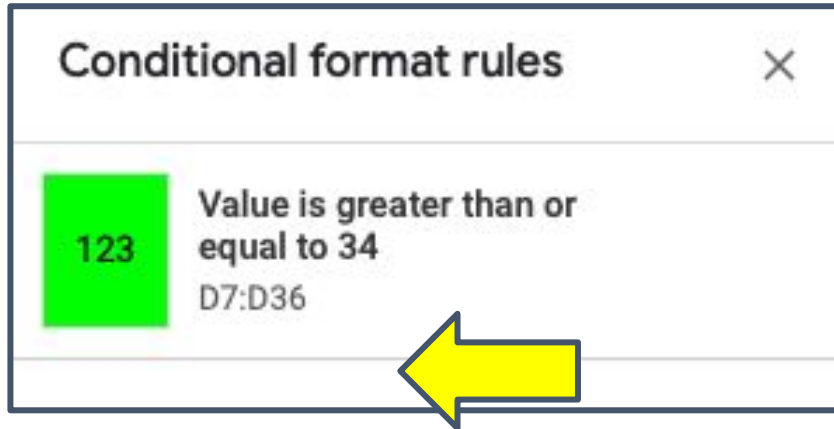

B I U ~~S~~ A  

7. After rules have been set I can customize the Format Style. This means I can change font style, size, & even the cell colors.

The DRA value to Greater than or equal to 34 is on grade level or above so I am setting the color to Green.

8. After Range, Format Rules, & Format Style have been set click the **green DONE** button.

You will see a summary of this rule in your dialogue box.

9. Click the add another rule button

+ Add another rule

The Range will be the same, now we will use the *Is between* Format Rule. Set your values for right below what we set as our “top” value & then the value right above what will be our “low”.

Apply to range

D7:D36

Format rules

Format cells if...

Is between

Value or formula & Value or formula

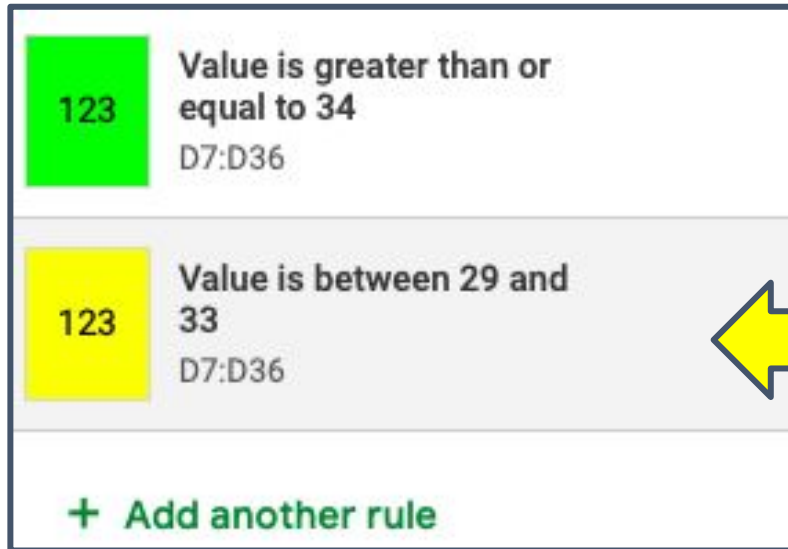

In this example I am using the upper value as 33 & the lower value as 29.

10. Again you can customize the color with the Format Style option, this time we are changing the color to Yellow.

11. After Range, Format Rules, & Format Style have been set for this rule, click the **green** DONE button.

123	Value is greater than or equal to 34	D7:D36
123	Value is between 29 and 33	D7:D36
+ Add another rule		

You will see a summary of this rule (& the previous) in your dialogue box.

12. Click the add another rule button

+ Add another rule

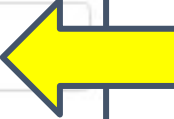

The Range will be the same, now we will use the *Less than or equal to* Format Rule. Set your value for the lowest value. In this example I am using 28.

Format rules

Format cells if...

Less than or equal to

Value or formula

13. Again you can customize the color with the Format Style option, this time we are changing the color to Red.

14. After Range, Format Rules, & Format Style have been set for this rule, click the **green** DONE button.

123	Value is greater than or equal to 34 D7:D36
123	Value is between 29 and 33 D7:D36
123	Value is less than or equal to 28 D7:D36

You will see a summary of all three rules in your dialogue box.

15. These three rules are now applied to our Range D7:D36 but ONLY for the first sheet in the workbook.... Don't worry though! We can duplicate these to others using the Paint Format tool.

16. Select the Range D7:D36 and select the paint format button.

17. Select the next sheet → In this case Damron

18. Then select the Range you want to apply those rules → again D7:D36 → You will notice now all three rules from our first sheet are now on this one!

3rd Grade Progress in Reading
Damron 2019-2020

DRA			Star Reading			Dibels 8th - NWF		Dibels - WRF	Pr
Pre (30)	Mid (34)	Post (40)	Pre(GE 3.0)	Mid (GE 3.4)	Post(GE 3.9)	CLS	WRC		
30			3.3			116	39	49	
28			3			118	32	64	
16			1.9			69	20	48	
34			5.5			148	42	65	
18			2.8			95	34	44	
28			3			116	31	45	
18			1.9			87	25	30	
20			3.4			56	17	42	
30			3.1			110	31	62	
10			1.6			42	10	19	
24			2.6			76	22	34	
18			2.4			54	17	25	
28			5.3			136	40	70	
28			3.2			76	23	37	

Conditional format rules

- 123 Value is greater than or equal to 34 D7:D36
- 123 Value is between 29 and 33 D7:D36
- 123 Value is less than or equal to 28 D7:D36

+ Add another rule

19. Repeat this as many times as you need! That is Conditional Formatting in Google Sheets!

Side note: if you duplicate (make a copy) of this Google Sheet the rules will duplicate as well!

Helpful hint: COMMAND + F → lets you search the page!
